Subject: Re: Fw: Dimock Round 2 sampling

There are no issues with the metals proposal, we can do all in house.

Subject: Fw: Dimock Round 2 sampling

Please review and let me know if you have any major issues.

This needs reviewed from two perspectives:

- Any major issues with list of proposed analytes or lack of analytes?
- Any issue with R3 accepting samples and any problems with R9 accepting samples? Do we need any other lab support? For micro - any way R3 can accept?

I need your comments by COB today.

Subject: Dimock Round 2 sampling

Cindy,

Attached is the OSC Recommendation for Round 2 sampling (resampling) for your review/information.

I will be sending this to our START contractor for the basis for them to prepare the 2nd Round SAP.

Please let me know if you have any major issues with our approach. We will plan to send the draft 2nd Round SAP to you for your review/comment.

Thanks.

Rich
